#### **DETAILED ACTION**

Claims 1-14 are pending in this application.

## Information Disclosure Statement

1. This office acknowledges receipt of the following items from the applicant: Information Disclosure Statement (IDS) filed on May 01, 2001 and made of record as Paper No. 2. The references cited on the PTOL 1449 form have been considered.

#### **Priority**

2. Acknowledgment is made of applicants' claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copies have been filed in JAPAN Application No. 2000-131933, filed on 05/01/2000, and Application No. 2000-154184, filed on 05/25/2000.

### **Drawings**

3. The drawings are objected for the following reason.

Figure 4B should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g).

#### Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Application/Control Number: 09/845,336

Art Unit: 2818

4. Claims 1-2, insofar as best understood, are rejected under 35 U.S.C. 102(b) as being anticipated by Figure 4B of Applicants' admitted prior art.

Regarding **claim 1**, Figure 4B of Applicants' admitted prior art disclose that a group III nitride compound semiconductor light-emitting device (50), comprising: a semiconductor laminate portion including a light-emitting layer (54); and a reflection surface (55) disposed so as to be opposite to a side surface of said semiconductor laminate portion, wherein said semiconductor laminate portion and said ref lection surface are provided in one and the same chip (see Background of the Invention, p. 21, lines 24-25, p. 22, lines 1-9).

Regarding **claim 2**, Figure 4B of Applicants' admitted prior art disclose that a group III nitride compound semiconductor light-emitting device wherein said reflection surface reflects light from said side surface of said semiconductor laminate portion into a direction of an optical axis of said light-emitting device (see Background of the Invention, p. 1, lines 16-22).

#### Allowable Subject Matter

- 5. Claims 3-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
- 6. Claims 8-14 are allowed. The following is a statement of reason for the indication of allowable subject matter:

Claims 8-14 are considered allowable since the prior made of record and considered pertinent to the applications' disclosure do not teach or suggest the claimed limitations. Figure 4B of Applicants' admitted prior art does not teach the claimed invention having a laminate of

group III nitride compound semiconductor layers inclusive of a light-emitting layer; a groove formed in said laminate; and a reflection surface formed on an outer side surface of said groove.

#### Conclusion

- 7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Shibata'076, Ikeda'277, and Koike et al.'416 are cited as of interest.
- 8. A shortened statutory period for response to this action is set to expire 3 (three) months and 0 (zero) day from the day of this letter. Failure to respond within the period for response will cause the application to become abandoned (see M.P.E.P 710.02(b)).
- 9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andy Huynh, (703) 305-0089. The examiner can normally be reached on Monday-Friday from 8:30 AM to 5:00 PM. The examiner's supervisor, David Nelms can be reached on (703) 308-4910. The Fax number for the organization where this application or proceeding is assigned is (703) 308-7724.
